

Mid-Atlantic Region Associate-Run Certifications

New in 2006, we are offering public certifications in the Mid-Atlantic Region (Pennsylvania, New Jersey, Delaware, Maryland, Washington D.C., Virginia and any other surrounding areas interested) to better serve clients in this region. Certification is required to purchase and implement many of the Leadership Architect® Suite of Products, including:

- Voices® - 360 Feedback System
- Interview Architect® Suite
- Organization Architect® Suite – Cultributes®
- Organization Architect® Suite – Change!Able®
- Organization Architect® Suite - Teams®
- Choices Architect® - Talent Management Tool - Build Your Leadership Bench Strength Through Learning Agility
- Learning Architect® - Improve Learning Skills

And, we are regularly offering the Leadership Architect® 101 workshop, a pre-requisite for all Lominger certifications. This course lays the foundation, sharing the research behind Lominger's suite of leadership development tools, as well as the best-practices behind effective implementations.

And, for those of you not quite sure of your readiness for the Lominger Suite, or just interested in learning about research and progress in the field of Talent Development, come to our "Leadership Machine" workshop. This half-day workshop will provide a broad survey of current research in the field of Talent Management, Lominger's philosophy, research-based and experience-tested approach, and an in-depth review and demo of products and on-line tools, with time to address your questions with experienced Lominger Associate consultants.

Remember, we also offer on-site certifications customized to your specific needs, designed to help you plan and implement this developmental approach in your organization. These workshops and consulting support are more cost-effective for larger groups, and provide better support for skills-transfer & internalization.

Our 2006 certification schedule is continually updated on the Lominger web-site at www.lominger.com. And, in April 2006, you will be able to get details and complete your registration ON-LINE via our new website: www.catalystcsc.com.
